

# Data Link Solutions

Where we are

World leader in Link 16 tactical data links

**7,000**  
terminals

**> 38**  
countries

**40** platforms

**\$3B**  
in orders  
with forecasted  
**growth**

**25+** years  
data link  
experience

- Wideband networking radios
- Software reprogrammable radios
- Tactical networking

**MIDS JTRS**  
Operational effectiveness with reduced SWaP

## Key products

**MIDS LVT**  
Coordinating airborne, maritime, and ground forces

**TTR**  
Smallest terminal addressing unique environmental challenges

**MOS Mod**  
Full interoperability for shipboard systems

Where we are going

System design and waveform integration for the future needs of the U.S. and allied communities.

Open architecture data link

Enhanced MIDS JTRS capability

Next-gen Link 16 transceiver

Increased production capability

Advanced LPI/LPD architectures

Expanded international footprint
